Legal &
General

OLP Connect offers an online gateway, which now enables you to quote, apply and manage all your protection and general insurance cases on one integrated system.

OLP Connect for General Insurance – it means business

OLP Connect General Insurance Features and Benefits

End to End Control

The end-to-end sales process is now much shorter. You can adjust your general insurance policy specification by adding and removing features and see the premiums adjust instantly.

Faster Service

Enhanced general insurance acceptance criteria questions mean we can now accept more of your clients without the need for referral. And, you'll be pleased to know that policy numbers are now automatically allocated.

Greater Ease

Flexibility and choice when arranging general insurance, with access to our latest Household and MPPI products. Common data can now be shared between both protection and general insurance applications.

OLP Connect also gives you the ability to process applications that include only GI products as you'll no longer need to go through the protection screens beforehand.

It's faster, more efficient, more accessible, more transparent and even easier to use.
